

I have 10 years of extensive professional experience in managing and leading design projects, planning and technical detailing of large residential masterplans, institutional buildings, hospitality and mixed use/commercial projects.

I have successfully organised, led and managed multi disciplinary teams through Concept/schematic design presentations, detail design, construction documentation and design quality management on many public and private sector projects.

My experience includes work throughout Asia, having worked with esteemed Architectural practices from India and abroad, such as Ranjit Sabikhi Architects +R204-New Delhi/Los Angel, NVA+SVA- Chennai, Peter Ellis New Cities-Chicago/New Delhi and Cannon Design- USA/Mumbai/New Delhi.

I have acquired extensive knowledge on modern facade design and coordination while working with the system Vendors to ensure quality and protect the design intent from concept to execution.
